## DETAILED ACTION

### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) submitted on 21 June 2006 has been acknowledged and placed in the file. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### ***Claim Objections***

2. Claims 5-10 and 14-20 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim ***should refer to other claims in the alternative only and/or cannot depend from any other multiple dependent claim.*** See MPEP § 608.01(n). Accordingly, the claims 5-10 and 14-20 have not been further treated on the merits.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1-4 provides for the method of determining the rate of dilution of the lubricating oil by the fuel, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to

Art Unit: 3747

encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 1-4 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

4. Regarding claims 11-14, the word "means" is preceded by the word(s) "allowing the temporary sampling and the re-injection" in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967).

5. Claims 1-4 and 11-14 recites the limitation "the lubricating oil", "the fuel", "the oil system", etc. There is insufficient antecedent basis for this limitation in the claim.

### **Conclusion**

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references in the form PTO-892 are being state of the art at the time of the invention.
